- Customized Literature and Display Program

Production and Distribution

- Production: Warren, Ohio and Egg Harbor Township, New Jersey
- Distribution warehouses: Atlanta, and Dallas

Corporate Affiliations

- Signature Door (www.signaturedoor.com) - a custom wood door manufacturer
- Champion Injection Molding
- Energy Star Partner
- Association of Millwork Distributors - AMD
- National Association & Management Institute - NAMI
- International Code Council - ICC

Production Efficiency

200,000 square feet facility in Warren, Ohio within 500 miles of 61% of the U.S and Canadian market.

Reputation for product excellence supported by an industry best Lifetime Warranty.

Increased pre-hanging efficiency due to RSL's use of "friction fit" connections which eliminates the need for screws in shipment. Saves pre-hanging time and money.

Automation and skilled production team enables RSL to produce 3500 - 7000 units daily.

Maintenance Free Frames

Champion Injection Molding, our sister company with 14 presses 28 tons to 2000 tons, supplies RSL, Ford, IBM, Kodak, John Deere and Bloom Industries.

Substantial UV color stability with high heat resistance and excellent weatherability.

24/7 injection molding production supervised by a management team with 97 years of combined experience.

Excellent impact strength

Maintenance free frames can be easily painted or stained

Available in white or tan frames with no upcharge

Energy Star

- RSL IG meets NFRC requirements for ASTM E2190
- Tested at Architectural Testing Labs and certified by NAMI
- RSL products can be used in steel and fiberglass doors for Energy Star criteria
- Energy Efficiency ratings (U-Factor, SHGC, Visible Transmission and Sound Transmission) are listed for both steel and fiberglass doors

Federal Tax Credit

- RSL decorative, BBG, Impact, LowE and clear glass meets .30/.30 tax credit requirements
- Every RSL warranty label clearly states U-Factor and SHGC rating
- Manufacturer's Certificates available online

Blinds Between Glass (BBG)

Easy to Clean

Easy to operate: raise, lower & tilt

Meets .30/.30 tax credit requirements without LowE glass

Lifetime Warranty on both white and almond BBGs

RSL Lifetime Warranty
Blinds Between Glass

- Blinds are sealed between safety tempered glass
- Always transport with blinds in raised position
- Meets IG standard for ASTM E2190
- To tilt blinds, simply slide top operator
- To raise/lower, blinds must first be tilted open
- Install with screws to inside; do not over tighten (max 18-20 inch/lbs)
- Warranty is limited to purchase price of product
- Maintenance-free frame does not require painting or staining. If painting is desired, use primer and paint labeled 'for plastics'. Then use 2 coats of clear polyurethane. Using paint thinners or similar chemicals will void warranty and damage sealants
- Storm doors can cause heat damage not covered by warranty. Venting storm doors are recommended.

Energy Performance Rating U/SHGC

RSL Lifetime Warranty on Frame & Glass

- Maintenance-free frame does not require painting or staining. If finishing is desired, avoid using primer & apply 2 coats of exterior latex or gel stain. Then top coat with 2 coats of clear polyurethane. Using paint thinners or similar chemicals will void warranty and damage sealants
- Install with screws to inside; do not over tighten (max 18-20 inch/lbs)
- Interior decorative glass is handcrafted, so bubbles and pattern variations are not defects
- Warranty is limited to purchase price of product
- Meets IG standard for ASTM E2190
- Storm doors can cause heat damage not covered by warranty. Venting storm doors are recommended.
